OMSI viene fondata nel 1961 a Zola Predosa, una delle più importanti zone industriali di Bologna, dove si specializza nello stampaggio di sedute in plastica (polipropilene e poliammide) per collettività, scuola e impianti sportivi. E' proprio in quest'ultimo settore che negli anni **OMSI** è diventata uno dei punti di riferimento del mercato Italiano ed Europeo, grazie ad una vasta disponibilità di stampi per diverse tipologie di sedute, a un attento servizio di progettazione ed a un'assistenza post vendita competente e veloce. La capacità di produrre direttamente in Italia con stabilimento e magazzino di proprietà, rendono **OMSI** una delle aziende più reattive e competitive nel panorama mondiale. Le collaborazioni con architetti, ingegneri e grandi nomi del design italiano contribuiscono a creare un prodotto che risponde ai requisiti tecnici e normativi senza tralasciare il comfort e l'aspetto estetico. Una tecnologia all'avanguardia che spazia dalla meccanica impiegata nella costruzione degli stampi alla scelta dei materiali plastici più idonei alla produzione, con la possibilità di ingegnerizzare i prodotti medesimi, sono alla base della filosofia aziendale odierna e futura. Un'intelligente diversificazione, consolidata negli anni, ha portato **OMSI** ad essere una realtà in grado di offrire prodotti, con differenti peculiarità, indirizzati ai settori più importanti dell'arredamento e che costituiscono un fattore trainante sia per una economia moderna, che per una economia minore in fase di sviluppo.

Dal 2002, **OMSI** è entrata a far parte del gruppo **TWINS**, uno dei gruppi più importanti nella produzione di componenti in plastica per sedute. Il Gruppo è presente in tutti i 5 continenti, con aziende controllate o partecipate, le quali offrono una capillare presenza sul territorio, sinonimo di serietà e competenza, portando il Made in Italy in tutto il Mondo. Nel 2013 **Omsi** ha creato la Linea Soft.

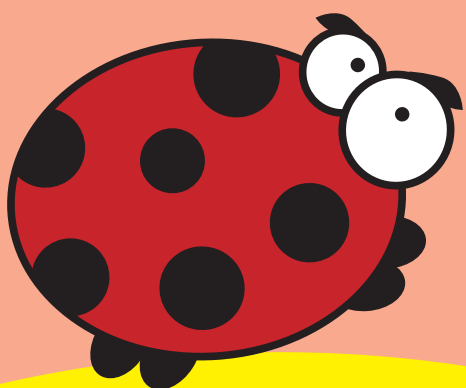

OMSI was founded in 1961 in the industrial area of Bologna. The Company has been specializing in the injection of plastic chairs made of polypropylene and polyamide for communities, school and sports facilities. Over the years, **OMSI** has become one of the reference points of the Italian and European market for this product segment, thanks to a context, Bologna, rich of projectuality and experimentation.

The great events of life, school, sport, living spaces where the people gathers together, such as offices, hospitals, big concerts, see the constant presence of **OMSI** to provide a definition of space, and seats to live events and waiting times in a harmonious and full of enthusiasm way capturing the best aspects of life. Our partnerships with architects, engineers, educators, help to create situations for a better living. The latest technology, ranging from mechanics employed in the construction of the moulds, to the choice of the best plastic materials suitable for the production, with the ability to engineer the products themselves, are the basis of our corporate philosophy today and tomorrow.

Intelligent diversification, consolidated over the years, led **OMSI** to become a reality able to offer products with different characteristics, addressed to the most important furniture sector and are a driving force for both a modern economy and for an minor economy under development. Since 2002, **OMSI** has become part of the group **TWINS**, one of the major groups in the world for the production of components for plastic chairs. Present in all five continents, with subsidiaries or associated companies, which by means of smart synergies offer a widespread presence throughout the territory which is synonymous of seriousness and competence, bringing the Made in Italy around the globe.

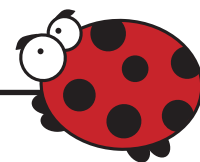

Besides that our customers are protected by a competent and fast after-sales service. In 2013 **OMSI** has introduced the Soft Line. The ability to produce its products directly in Italy with its factories and warehouses, made of **OMSI** one of the most reactive and competitive companies in the world scenario.

CUBEAU

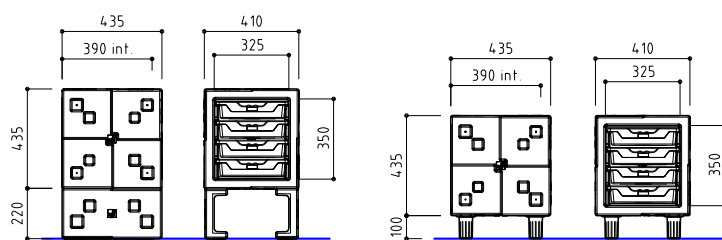

Art. OM 4.011

CUBEAU

Dim. 41x 43,5 h x 43,5 cm

Per una organizzazione più definita ed efficiente degli spazi, in ambito domestico e scolastico, soprattutto nelle scuole materne design moderno, colorato e modulare può contenere tutta la gamma di vaschette portaoggetti OMSI. Vasta gamma di colori.

For a more defined and efficient organization of spaces in the domestic and school environment, especially in kindergartens colorful, versatile, with its modern design it is suitable to contain the whole range of OMSI storage trays. Wide range of colors.

Cubeau con distanziali
Cubeau with spacers

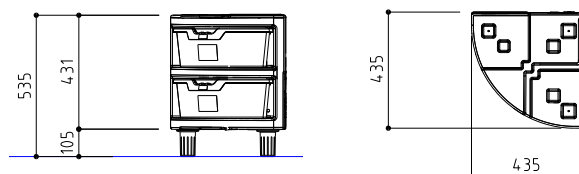

Cubeau con 4 piedi
Cubeau with 4 feet

Art. OM 4.014

CUBEAU ANGOLARE / CORNER CUBEAU

Dim. 43,5 x 43,5 h x 43,5 cm

CUBEAU può essere un'originale alternativa al classico armadio in legno, si adatta facilmente a qualsiasi realtà e grazie alla sua composizione in moduli e alla sua versatilità si possono creare molteplici soluzioni di arredo:

- Colonna
- Mensola
- Divisorio
- Isola
- Seduta
- Pouf con cuscino
- Contenitore per giochi

È stato progettato con particolare attenzione alla sicurezza, infatti tutti i moduli sono fissati a parete e tra loro a mezzo di viti e le guide hanno un sistema di blocco; è atossico, robusto e riciclabile al 100%.

È caratterizzato da uno stile essenziale, pulito e compatto, le linee sono semplici e moderne, i bordi sono arrotondati ed è privo di spigoli, ampia scelta di colori e di combinazioni tra Cubeau e Vaschette.

Ideato per incoraggiare l'indipendenza dei bambini nell'organizzazione dei giocattoli o dei materiali scolastici.

***CUBEAU** can be an original alternative to the classic wooden cabinet, as it easily adapts to any reality and thanks to its composition in modules and its versatility it is possible to create multiple furnishing solutions:*

- Column
- Shelf
- Partition
- Island
- Seat
- Pouf with pillow
- Toys Box

It has been designed with special attention to safety, in fact all the modules are fixed to the wall and between them by means of screws and the guides have a locking system;

It is non-toxic, robust and 100% recyclable.

It is characterized by a basic, clean and compact style, the lines are simple and modern, the edges are rounded to prevent any injury, available in a wide choice of colors and combinations between Cubeau and trays of several different sizes and shapes

Designed to encourage children's independence in the organization of toys or school supplies.

PARACOLPI / SOFT BUMPERS

ART. OM 4.445

PARACOLPI / SOFT BUMPERS

Ideali per proteggere svariate situazioni pericolose come muri di recinzione, colonne, tubi, pilastri, cordoli e pali, sia in ambienti esterni che interni come centri sportivi, palestre e scuole.

Realizzabili in qualsiasi forma e dimensione, hanno un elevato grado di assorbimento urti e sono in grado di ridurre gli incidenti e le lesioni grazie al poliuretano utilizzato per interno con densità 21 e con spessore di 4/6 cm. Tutti i prodotti sono forniti su misura in base alle esigenze del cliente. Installazione molto semplice, mediante fascia in velcro.

Ideal as a protection against various hazardous situations such as fencing walls, columns, tubes, pillars, curbs and poles, both in outdoor and indoor environments such as sports centers, gyms and schools. Available in any shape and size, they have a high degree of shock absorption and are able to reduce accidents and injuries thanks to the polyurethane used for interiors with density 21 and with a thickness of 4/6 cm. All the products are tailored to your needs. Very simple installation with velcro strap.

PROTEZIONI MURALI / WALL PROTECTIONS

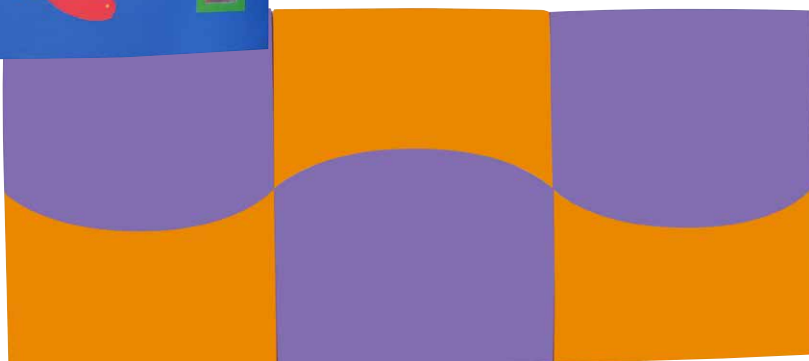

Con rivestimento in tessuto Green Cover
Covered with Green Cover fabric

Art. OM 4.443

PROTEZIONI MURALI CON DECORAZIONI
WALL PROTECTIONS WITH DECORATIONS

Decorazioni: 2 pesci e 2 specchi
Decorations: 2 fishes, 2 mirrors
Dimensione / size cm 100 x 130 h.

Art. OM 4.444

PROTEZIONI MURALI BICOLORE / WALL PROTECTIONS BICOLORED
Dimensione / size cm 100 x 130 h.

Ideali per la protezione dei muri nelle zone di gioco. Le protezioni murali hanno un forte assorbimento dei colpi e permettono di ridurre gli incidenti e i traumi grazie ad uno spessore di 4 cm.

Ancoraggio al muro tramite bande di velcro da 5 cm di spessore.

Ideal for wall protection in playground areas. Wall protections have a strong absorption of shocks and allow to reduce the risk of accidents and trauma thanks to their 4 cm thickness.

Wall anchoring by means of 5 cm thick velcro bands

PROTEZIONI MURALI / WALL PROTECTIONS

Con rivestimento in tessuto plastico monosplamato / Covered with Spread plastic fabric

ANCORAGGIO

Le protezioni murali vengono ancorate al muro con doppie fasce di velcro da 5 cm poste nella parte posteriore in alto ed in basso. Il velcro maschio viene fornito a parte da applicare sul muro. E' consigliato l'utilizzo eventuale di listelli di legno (non compresi) sui quali applicare il velcro maschio con colla.

ANCHORAGE

Wall protections are anchored to the wall by means of double velcro bands of 5 cm applied at the back top and bottom part. Male velcro is supplied separately to be applied on the wall. It is advisable to eventually use wooden strips (not included) to fix on the wall onto which Velcro male bands can be glued.

COLORI

Le protezioni sono disponibili in 4 colori: Rosso - Blu - Verde - Giallo

COLOURS

The protections are available in 4 colors: Red - Blue - Green - Yellow

PREZZI

La protezione viene fornita su misura a metro lineare. Il prezzo minimo è pari a 1 mt l.

PRICES

Protection is supplied tailor-cut per linear meter. Minimum price is equal to 1 l. m.

INFORMAZIONI TECNICHE LINEA NIDO E LINEA MATERNA

INTERNI

La maggioranza degli articoli sono realizzati con interni in poliuretano espanso di densità 25 kg. al mc. I materassini di spessore cm. 4 e 6, le forme geometriche e le protezioni murali sono di densità 21 kg al mc. Per i materassi di spessore cm. 10 e 20 viene utilizzato del poliuretano espanso di densità 18 kg. al mc. Tutte le piscine sono realizzate con interno D28 con alta portata. I pouf ed i cuscini sono imbottiti con fibra di poliestere espanso. Su richiesta, tutti gli articoli possono essere forniti con interno in poliuretano espanso ignifugo di densità 25 kg. al mc. (richiedere quotazioni)

RIVESTIMENTI ED ACCESSORI

Con il nuovo programma Soft sviluppato in azienda nel 2016 tutti i rivestimenti impiegati sia per la Linea Nido che per la Linea Materna, **ad esclusione dei materassi e delle protezioni murali mantenuti con tessuto plastico monospalmato per motivi di resistenza**, sono realizzati con il nuovo ecotessuto in poliestere denominato Green cover, elastico, morbido al tatto, antiscivolo, impermeabile, antiabrasivo, resistente alle lacerazioni, lavabile, privo di ftalati ed ignifugo in classe 11M.

Le fodere per i materassi e le protezioni murali sono realizzate con tessuto plastico monospalmato, opaco, particolarmente resistente alle abrasioni e lacerazioni, lavabile, atossico, ignifugo in classe 2 e privo di ftalati. Su richiesta possono essere forniti con tessuto Green cover. (richiedere quotazioni). I pouf ed i cuscini sono dotati di doppia fodera, una interna bianca ed una esterna colorata. Tutti i rivestimenti sono dotati di chiusure lampo particolarmente robuste, che ne consentono la sostituzione nel tempo, con cursori a scomparsa in apposite taschine. Le fasce di velcro impiegate, da cm. 5, per ancorare percorsi, piscine e protezioni sono di ottima qualità e particolarmente resistenti.

COLORI

Con la nuova produzione 2016 siamo in grado di soddisfare molte esigenze del mercato offrendo una gamma colori particolarmente ricca e piacevole. In particolare il tessuto Green cover prevede un assortimento di 11 colori dei quali 4 tenui già utilizzati per la linea nido e 7 più vivaci utilizzati per i nuovi articoli della linea materna. Su richiesta del cliente comunque ogni articolo esposto in catalogo, sia della linea nido che materna, può essere fornito con colore diverso da selezionare sulla vasta gamma di 11 proposti. Gli articoli realizzati con rivestimenti bicolore, comprese le sedute per bambini, vengono forniti in base alle foto esposte in catalogo. Su richiesta possono essere forniti con combinazioni di colore scelti dal cliente. Le fodere relative ai materassi e protezioni, realizzate con tessuto plastico monospalmato, sono disponibili nei 4 colori tradizionali: rosso - blu - giallo - verde.

REQUISITI DI SICUREZZA

L'azienda Omsi, responsabile della progettazione, produzione e confezionamento degli articoli contenuti nel presente catalogo Soft, garantisce che i prodotti sono realizzati nel pieno rispetto delle norme europee previste in termini di qualità e sicurezza.

TECHNICAL INFORMATION ABOUT NURSERY AND KINDERGARTEN SOFT COLLECTIONS

INTERIORS

Most of the products are made with polyurethane foam interiors density 25 kg. per cubic meter. The 4 and 6 cm-thick mattresses, the geometric shapes and the wall protections are density 21kg per cubic meter. For mattresses of 10 and 20 cm thickness, it is used polyurethane foam density 18 kg. per cubic meter. The poufs and cushions are filled with expanded polyester fiber. Upon request, all items can be supplied with fire retardant polyurethane foam 25 kg density per cubic meter. (Ask for quotes)

FABRICS AND ACCESSORIES

With the new Soft program developed by OMSI in 2016 all fabrics used for both Nursery and Kindergarten Soft Collections, excluding mattresses and wall protections for which we use single spread plastic fabric for strength reasons, are made with the new eco polyester fabric called Green cover, elastic, soft to the touch, non-slip, waterproof, abrasion-resistant, tear-resistant, washable, phthalate-free and fire-retardant class 1 IM.

The covers for mattresses and wall protections are realized with single spread plastic fabric, matte, particularly resistant to abrasion and tearing, washable, non-toxic, fire retardant class 2 and phthalate-free. On request they can be supplied with Green cover fabric. (Ask for quotes). Poufs and pillows are equipped with double lining, a white internal one and a colorful exterior. All fabrics have particularly robust zippers, that can be replaced, with sliders retractable in appropriate pockets. The used Velcro straps, cm. 5, to anchor paths, pools and protections are of excellent quality and very resistant.

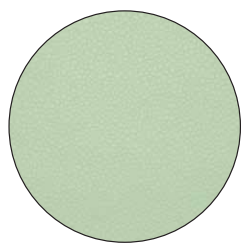

COLOURS

With the new production in 2016 we are able to comply with market requirements, offering a wide range of different colors. In particular, the fabric cover Green provides a selection of 11 colors of which 4 pastel colors already used in the nursery line and 7 bright colors used for new articles of the kindergarten line. Upon request of the customer, in any case, each item displayed in the catalog both of the nursery and kindergarten collections, can be supplied with different colors to be selected among the 11 proposed. Products displayed with two-tone finishes, including kid's sofas, are usually supplied according to the photos shown in the catalog. Upon request, they can be supplied with color combinations chosen by the customer. Fabrics of mattresses and protections, made with single spread plastic fabric, are available in the 4 traditional colors: red - blue - yellow - green.

SAFETY REQUIREMENTS

Omsi srl, responsible for the design, manufacture and packaging of the products displayed in this Soft catalog guarantees that the same are manufactured in full compliance with European regulations in terms of quality and safety.

TARTARUGA TUNNEL / TURTLE TUNNEL

Dim. cm 75 x 60 x 50 h

Altezza interna del tunnel 35 cm

Disponibile in due versioni: bicolore o multicolore.

Inner height 35 cm

Available in two versions: bicolor or multicolored.

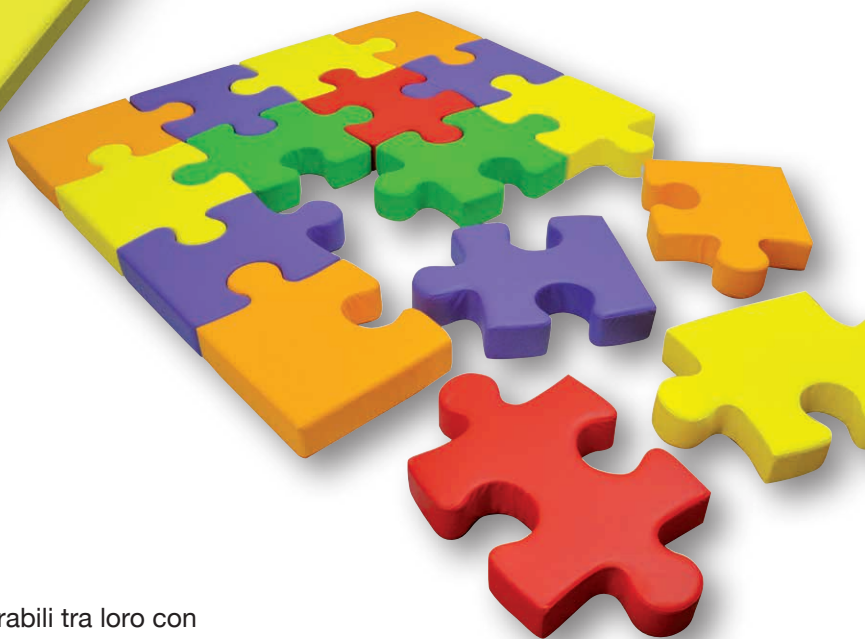

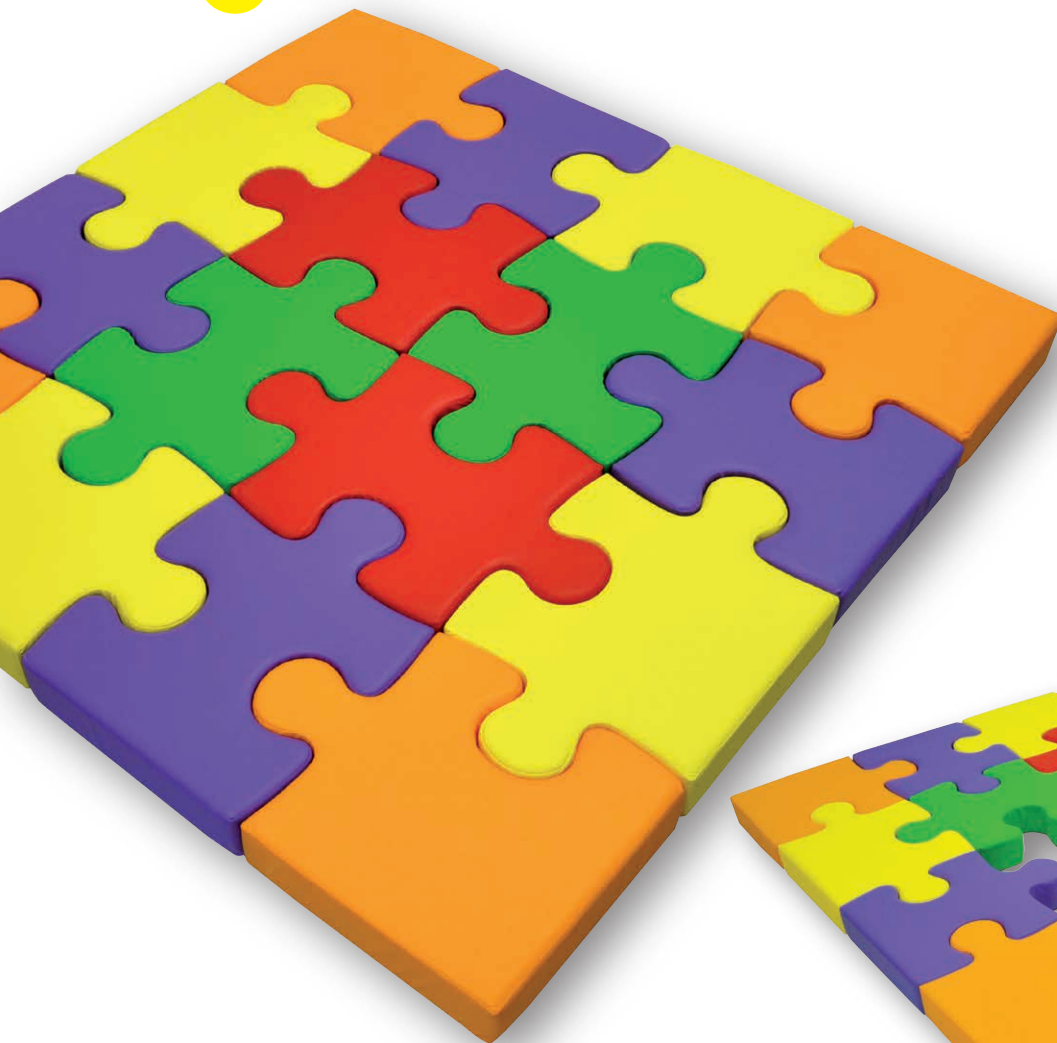

Tunnel multicolore a forma di simpatica tartaruga, consigliato per bambini fino a 3 anni di età. La testa e le gambe laterali sono ancorabili alla struttura centrale per mezzo di bande di velcro. Il tunnel internamente è dotato di un foglio riflettente assolutamente irrimovibile e sicuro che lo rende più stimolante e divertente.

Multicolored tunnel shaped like a turtle, recommended for children up to 3 years of age. The head and the lateral legs are anchored to the central structure by means of velcro bands. The tunnel internally comes with a non removable and secure reflective sheet that makes it more challenging and fun.

TAPPETO PUZZLE PUZZLE CARPET

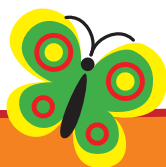

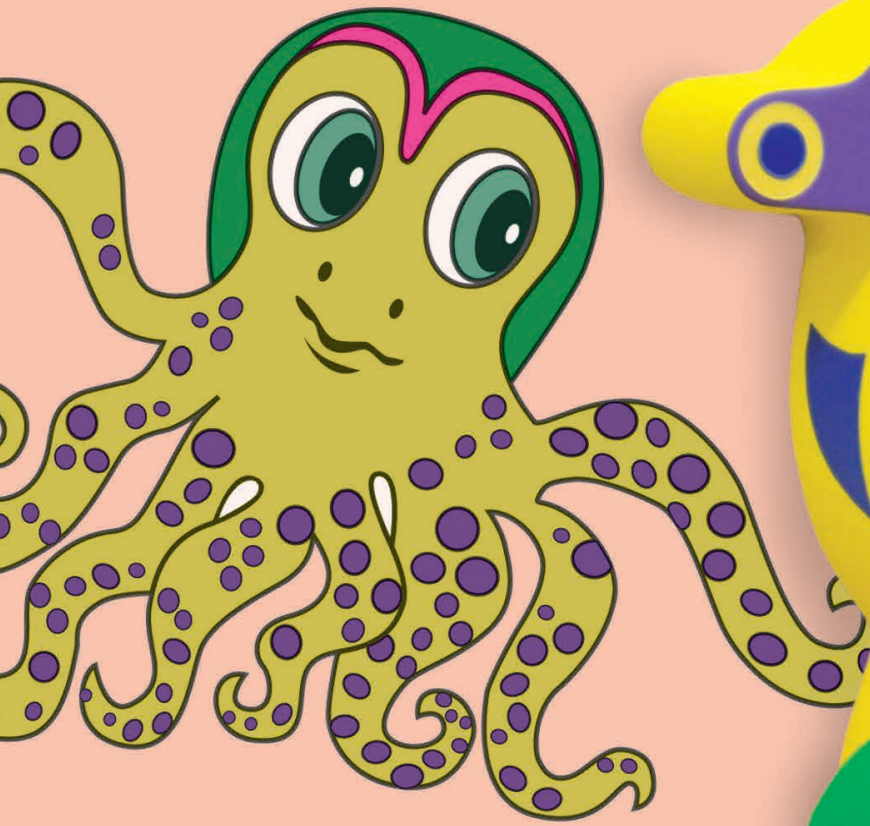

ART. OM 2.144
TAPPETO PUZZLE
PUZZLE CARPET

Composizione di 16 pezzi di spessore 10 cm ancorabili tra loro con sistema di incastro differenziato. Il progetto prevede 12 mattonelle perimetrali fisse e 4 mattonelle centrali versatili; infatti le dimensioni del tappeto possono essere ampliate nel tempo sia in lunghezza che in larghezza aggiungendo mattonelle centrali. Il tappeto puzzle oltre ad essere un grande spazio relax rappresenta anche un valido supporto didattico, in quanto stimola il bambino alla logica, alla manipolazione e alla costruzione.

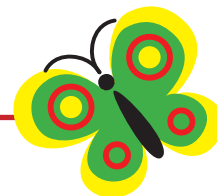

Composition of 16 pieces 10 cm thick, which can be anchored to each other with a differentiated locking system. The carpet includes 12 fixed perimetral tiles and 4 central versatile tiles. Infact, the dimensions of the carpet can be expanded over time both in length and width by adding central tiles. The puzzle carpet as well as being a great relaxation space is also a valid teaching support, as it stimulates the child to logic, manipulation and construction.

ANGOLO MORBIDO SOFT CORNER

Grande angolo morbido particolarmente indicato per attività motorie, ludiche e di socializzazione.

Tutti i componenti proposti (onda 1/2/3/4) sono modulari, ancorabili tra loro con fasce di velcro e consentono di modificare e/o ampliare il vs. angolo in base agli spazi disponibili ed al numero di bambini presenti.

Le altezze e le larghezze impiegate permettono di camminare e gattonare sui moduli con estrema sicurezza.

In queste pagine proponiamo un esempio di composizione realizzata con rivestimenti dai colori verdi (chiaro/scuro) ma, su richiesta, possono essere ordinati con altre combinazioni di colore da selezionare nella gamma esposta a pag. 42 (es. blu/azzurro)

Large soft corner particularly suitable for physical activities, games and socialization.

All the proposed modules (1/2/3/4 wave) are modular, anchorable one to each other with Velcro straps and allow you to modify and / or expand your corner size according to the available spaces and the number of children

Heights and widths used allow you to walk and crawl on the modules with extreme safety.

In these pages we offer an example of a composition formed with modules of different shades of green (Light / dark), but, on request, can be ordered with different color combinations to be selected in the range of colors proposed on page. 42 (ex. Blue / Light Blue)

Linea SPORT SPORT Line

INFORMAZIONI TECNICHE / TECHNICAL INFORMATION

INTERNI: realizzati in poliuretano espanso tagliato in lastre completamente antipolvere.

Le diverse densità utilizzate (16 - 22 - 25) vengono indicate per ogni singolo articolo.

RIVESTIMENTI: in materiale plastico goffrato particolarmente robusto, bispalmato con le seguenti caratteristiche:

IGNIFUGO CL 2 - ATOSSICO

ANTIBATTERICO - ANTIMUFFA

FUNGICIDA - IMPERMEABILE - ANTIABRASIVO

LAVABILE CON DETERGENTI NORMALI

ACCESSORI: tutti i materassi sono dotati di fodere con chiusura a lampo e pertanto è possibile sfoderare e sostituire, nel tempo, ogni singolo rivestimento. Le cerniere utilizzate sono particolarmente robuste e dotate di cursori arrotondati. Tutti i materassi sono dotati di maniglie a doppia cucitura di colore blu.

I materassi di spessore cm. 30-40 sono corredati di fori di sfianto e maniglie rinforzate esternamente.

I tappetoni a libro sono ancorati tra loro mediante fasce di velcro da cm. 5. Tutti gli articoli sono disponibili in 2 versioni: senza antisdrucciolo e con antisdrucciolo. L'antisdrucciolo applicato, di colore grigio e particolarmente resistente, consente al materasso una grande aderenza al suolo.

COLORI: i materassi e le protezioni sono disponibili unicamente nel colore blu.

ARTICOLI SU MISURA: tutti i materassi, possono essere forniti, a richiesta, con densità, spessori e dimensioni diverse. Il nostro ufficio tecnico è a vostra disposizione per eventuali preventivi.

INTERIORS: made of polyurethane foam cut into panels completely dustproof.

The different densities used (16 - 22 - 25) are indicated for each item.

COVERINGS: The plastic material is textured to make it particularly strong, coated on both sides with the following characteristics:

FIREPROOF CL 2 - ATOXIC

ANTIBACTERIAL - ANTI-MOULD

FUNGICIDE - WATERPROOF - ANTIABRASIVE

WASHABLE WITH NORMAL DETERGENTS

ACCESSORIES: all mats linings have zip closures, so that they can be easily replaced any time. Zippers used are particularly robust and equipped with rounded cursors. All mattresses have double-stitched handles in blue color. The mattresses cm thick. 30-40 are equipped with vent holes and externally reinforced handles.

The heavy rugs are anchored together by means of Velcro straps cm. 5. All items are available in 2 versions: without anti slipping and with anti slipping. Anti slipping used, grey in color and very durable, provides great grip to the ground.

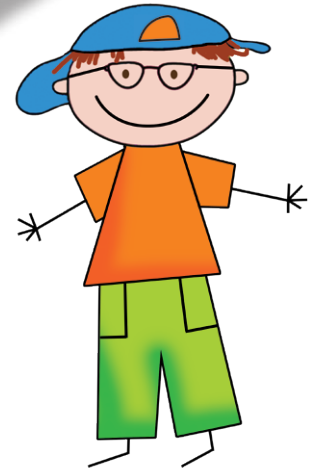

COLOURS: mats and protections are only available in blue color.

TAILORED ITEMS: all mats, can be provided, upon request, with different densities, thicknesses and sizes. Please contact our technical department for any requirements.
